## Academic Appointments

2014\* - Assistant Professor, Department of EECS, Syracuse University

\* including parental leaves (two times)

## Education

Ph.D. *Georgia Institute of Technology* (Atlanta, GA USA), 2009-2014  
M.Sc. *Fudan University* (Shanghai, China), 2006-2009  
B.Sc. *Fudan University* (Shanghai, China), 2002-2006

## Research Interests

I am broadly interested in cyber-security and distributed systems. My current research focuses on distributed systems security and efficiency, in emerging/evolving infrastructures and applications such as blockchains, web infrastructures, cloud computing, etc. My research tackles the fundamental design tradeoff between security and performance. On the one hand, I analyze and measure large-scale deployed systems to identify, verify, and mitigate vulnerabilities. On the other hand, I optimize performance and build middlewares on security-centric systems.
