Academic Appointments

2014* - Assistant Professor, Department of EECS, Syracuse University

* including parental leaves (two times)

Education

Ph.D. *Georgia Institute of Technology* (Atlanta, GA USA), 2009-2014
M.Sc. *Fudan University* (Shanghai, China), 2006-2009
B.Sc. *Fudan University* (Shanghai, China), 2002-2006

Research Interests

I am broadly interested in cyber-security and distributed systems. My current research focuses on protocol analysis and design to understand and tackle the security-performance tradeoff in emerging infrastructures and security applications, including blockchains, web infrastructures, cloud computing, etc. On the one hand, I analyze and measure large-scale operational systems to identify, verify, and mitigate vulnerabilities. On the other hand, I design cost/performance optimization schemes and build middleware on security-centric distributed systems.
